

**VEWS II Integration:**

**VEWS II is a new system enhancement for certifiers that will review the Cause of Death sections I and II for incorrect spelling and abbreviations for common medical terms.**

When VIEWS flags a possible incorrect spelling, the word is underlined in red.

**Cause of Death Part I ?**

Enter the immediate cause of death in the first box, followed by the interval or length of time between the onset of that condition and death. Then, in the following boxes, sequentially list the diseases/conditions/events, if any, that led to the immediate cause, followed by the interval between the onset of each condition and death. The UNDERLYING CAUSE OF DEATH (which is the disease, condition, or event that BEGAN the process resulting in death), should be entered in the LAST box completed, again followed by the interval between the onset of that condition and death.

<b>Immediate Cause of Death (a):</b> <small>(Final disease or condition resulting in death)</small>	<u>MYACARDAL</u> <u>INFARCTON</u>
<b>Interval Between Onset and Death:</b>	UNKNOWN
<b>Due To, or as a Consequence Of:</b>	<u>HYPERTENSON</u> ?
<b>Interval Between Onset and Death:</b>	
<b>Due To, or as a Consequence Of:</b>	<u>ALZHEMERS</u> DISEASE ?
<b>Interval Between Onset and Death:</b>	

Click on the word for the suggestion box to appear. Choose from the list to correct the error. If you do not choose to change the error, the red underline will remain, but you will be able to save and sign the case.

### Cause of Death Part I ?

Enter the immediate cause of death in the first box, followed by the interval or length of time between the onset of that condition and death. Then, in the following boxes, sequentially list the diseases/conditions/events, if any, that led to the immediate cause, followed by the interval between the onset of each condition and death. The UNDERLYING CAUSE OF DEATH (which is the disease, condition, or event that BEGAN the process resulting in death), should be entered in the LAST box completed, again followed by the interval between the onset of that condition and death.

**Immediate Cause of Death (a):**  
(Final disease or condition resulting in death) MYACARDAL INFARCTON X
